Dear Mr. Gruenberg:

It was with dismay that I learned of the retail giant Walmart's plan to enter the banking business. I have seen how Walmart's entering an area drives small stores out of business, and I fear that Walmart banks would do the same to community banks, as Walmart customers would opt to use its banking facilities while shopping.

Please do not allow Walmart to have a bank charter, and please encourage the Board of Directors of the FDIC to attend the meeting on this proposal.

Thank you for your time and attention.

Sincerely,  
Jane Sutton
